

Boompole Apron

for Rock N Roller MultiCart

Manufactured by KarauProducts

Designed specifically as an accessory for the Rock N Roller R12 series, and features 4 pockets to hold up to 4 boompoles, antennas, umbrellas, or other pole-type items.

The apron features an inverted pocket that slips over the standard side upright of the cart, and is secured with snaps, a mid-strap, and lower corner "hook & loop" retainers.

When not in use on the cart, the apron serves as a carry bag for the boompoles, wrapping safely around them and securing with the mid-strap.

It is ruggedly constructed from 1000d nylon, triple stitched, and manufactured entirely in the USA by KarauProducts.
